

Contents

List of Contributors	xiii
Foreword	xxiii
Preface	xxiv
KEYNOTE LECTURES	1
1. Witnessing the Development of the Mushroom Industry in China	3
SHU-TING CHANG	
2. Culinary-Medicinal Higher Basidiomycete Mushrooms as a Prominent Source of Dietary Supplements and Drugs for the 21st Century	20
SOLOMON P. WASSER & MARYNA YA. DIDUKH	
Part I PHYSIOLOGY, BIOCHEMISTRY AND MOLECULAR BIOLOGY OF MUSHROOMS/MUSHROOM SYSTEMATICS	35
3. New Hypotheses from Integration of Morphological Traits, Biochemical Data and Molecular Phylogeny in <i>Agaricus</i> spp.	37
P. CALLAC, J. GUINBERTEAU & S. RAPIOR	
4. The Cultivation of Mycorrhizal Mushrooms - Success and Failure	45
I.R. HALL, A. ZAMBONELLI & Y. WANG	
5. Superoxide Dismutase - Mushrooms Under Stress!	61
J. HENDERSON, D. EASTWOOD, N. BAINS & K. BURTON	
6. Media Composition Influences the Ability of <i>Ganoderma lucidum</i> Mycelium to Absorb Selenium	66
S. DULETIĆ-LAUŠEVIĆ, M. STAJIĆ, I. BRČESKI, & J. VUKOJEVIĆ	
7. Cellulolytic Enzyme System of <i>Pleurotus ostreatus</i> and Its Application in Animal Feed	68
SUTTIPUN KEAWSOMPONG, JARUWAN SANOMWATANAWONG & SUNEE NITISINPRASERT	

8. Gene Expression of a New Metalloprotease from <i>Pleurotus ostreatus</i> is Developmentally Regulated	74	17. Characterization of Novel Antihypertensive Angiotensin I- converting Enzyme Inhibitory Peptides from Edible Mushrooms	127
JOONG-HO JOH, NAM-KUK KIM, HYE-RAN PARK, JONG-HYUN LIM, KYUNG-JUNG BANG, YUN-SUN CHOI, GAE-NAM JUNG, BONG-GUM CHO & CHANG-SOO LEE		DAE HYOUNG LEE, KYO CHUL KOO, JEONG SIK PARK & JONG SOO LEE	
9. Full-Length cDNA Sequence of a Gene Related to the Thermotolerance of <i>Agaricus bisporus</i>	85	18. Effect of Selenium Source on Selenium Absorption by Mycelia of Nine <i>Pleurotus ostreatus</i> Strains	135
MEIYUAN CHEN, ZESHENG WANG, JIANHUA LIAO, ZHENGHUI LU, ZHONGJIE GUO & HONGRONG LI		M. STAJIĆ, I. BRČESKI, S. DULETIĆ-LAUŠEVIĆ, J. VUKOJEVIĆ, S.P. WASSER & E. NEVO	
10. A Multigene Approach for the Taxonomic Determination of <i>Pleurotus eryngii</i> Isolates	89	19. Cultivation and Antioxidative Activities of a New Functional Mushroom, <i>Pholiota</i> spp.	140
P. MARONGIU, L. MADDAU, S. FRISULLO & F. MARRAS		W.S. KONG, Y.H. CHO, C.S. JHUNE, C.H. YOU, Y.B. YOO, I.M. CHUNG & K.H. KIM	
11. Morphological and Anatomical Characterization of <i>Morchella eximia</i> f. <i>schizocostata</i> Jct. Recorded for the First Time in Turkey	92	20. Report on the Exploitation of Mycelia Powder Products	150
M. H. SOLAK, F. YILMAZ ERSEL, E. KALMIS & F. KALYONCU		BINGZHI YANG	
12. Determination of Some Characteristics of Wild <i>Agaricus bisporus</i> Collected from Turkey	95	Part III MUSHROOM GENETICS AND BREEDING	153
ERBIL KALMIS, M. H. SOLAK & FATIH KALYONCU		21. Nuclear Behaviour and Mating System Analysis in the Bipolar Mushroom, <i>Pholiota nameko</i>	155
13. The Influence of Culture Conditions on Fungal Pellet Formation by Submerged Fermentation of <i>Cordyceps sinensis</i> (<i>Paecilomyces hepiali</i>) - Cs 4	99	T. AIMI & Y. KITAMOTO	
M. PETRE, M. X. PENG & L. X. MAO		22. Breeding Mushrooms: State of the Art	163
14. Identification of <i>Tuber aestivum</i>, <i>T. panniferum</i> and <i>T. excavatum</i> by Restriction Fragment Length Polymorphism	105	A.S.M. SONNENBERG, J.J.P. BAARS, P.M. HENDRICKX & R.W. KERRIGAN	
A. SCHIAFFINO, E. LANCELOTTI, M. CIRULLI & F. MARRAS		23. Transgenic Breeding of <i>Agaricus bisporus</i>: The Next Frontier	174
Part II NUTRITIONAL AND MEDICINAL ASPECTS OF MUSHROOMS	109	C. P. ROMAINE	
15. Champignon do Brasil (<i>Agaricus brasiliensis</i>): Nutrition, Health, Market Demands and Regulatory Concerns	111	24. Transformation of <i>Volvariella volvacea</i> with a Thermal Hysteresis Protein Gene by Particle Bombardment	185
M.A.L. DE A. AMAZONAS		LIQIONG GUO, JUNFANG LIN, SHENG XIONG & SHOUCAI CHEN	
16. Elucidating the Flavour Synthesis Pathway of <i>Agaricus bisporus</i>	120	25. Analysis of the Polarity of the Jelly Basidiomycete <i>Auricularia auricula</i>	194
EMILIE COMBET, JANEY HENDERSON, DANIEL EASTWOOD, GARETH GRIFFITHS & KERRY BURTON		YADONG HUANG, YANG XIAO, ZHUOREN WANG & YINBING BIAN	
		26. RAPD Analysis of Three Selected Strains of <i>Hypsizigus marmoreus</i>	200
		ZHOUIJIAN SHANGGUAN	
		27. Gene Transfer In Edible Mushrooms	204

Y.B. YOO, W.S. KONG, S.J. OH, C.S. JHUNE, B.G. KIM & G.H. KIM		Y.W. FUNG, T.W. FUNG & M. FRANCO	
28. Elementary Research Report on the Cross Breeding of <i>Pholiota nameko</i>	214	38. Use of Mushroom Spent Wheat Straw Compost as Animal Feed	291
YUQIAN CAO, ZHENGFEN CHEN, FENG CHI & YIN ZHANG		H. FAZAELI & A. SHAFEYI	
Part IV CULTIVATION TECHNOLOGY AND SPAWN PREPARATION	219	39. Spawn Preparation by Irradiation of Grains	296
29. Monitoring Mushroom Compost Quality During Production and Cropping	221	PARVEEN GARG	
H. S. SHEKHAR SHARMA, MAIREAD KILPATRICK & GARY LYONS		40. High Yield Cultivation Techniques for Year-round Production of <i>Lentinula edodes</i> in a Solar Greenhouse	299
30. Progress on the Breeding, Spawn-Making and Year-Round Cultivation of <i>Agaricus bisporus</i> in Fujian, China	236	YUEMEI LI	
ZESHENG WANG		41. Growing of <i>Pleurotus ostreatus</i> on Woods of Various Deciduous Trees	306
31. Vermicompost in Substrate and Casing Formulas for the Production of Brown <i>Agaricus bisporus</i>	243	M. PAVLIK	
B. S. GARCÍA, D.J. ROYSE & J.E. SÁNCHEZ		42. The Effect of Calcium Chloride Irrigation on <i>Agaricus</i> Yield, Quality and Salinity of Casing Soil	313
32. The Evaluation of Compost Parameters During Production for the Development of a Potential Yield Model for Phase III Compost	249	H. RIAHI & G.H. KHAMMAR	
O. DANAI, D. LEVANON & H. S. SHEKHAR SHARMA		43. Study on the Technological Conditions for Submerged Fermenter Culture of Eight Strains of <i>Flammulina velutipes</i>	318
33. Use of Common Reed (<i>Phragmites communis Trin.</i>) as Raw Material in the Cultivation of <i>Pleurotus ostreatus</i>	258	WEN WANG, ZHONGGUI ZHU & PINGPING LI	
ENGIN D. GEZER, ÜMIT C. YILDIZ, SIBEL YILDIZ & ALI TEMİZ		44. Effects of Different Substrate Combinations on Mycelial Growth of <i>Pleurotus ostreatus</i>	323
34. Bioconversion of the Olive Oil Mills By-Product (Jift) by Mushroom Fungi in Jordan	264	SIBEL YILDIZ, ENGIN D. GEZER, ÜMIT C. YILDIZ, ALI TEMİZ & EYLEM DİZMAN	
K. M. HAMEED, W. SHARADQAH, I. SAADUN & K. I. EREIFEG		Part V R & D FOR THE CULTIVATION OF NEW MUSHROOM SPECIES	329
35. Evaluation of Orykta™ as a Source of Micronutrients to Improve Yield and Quality of <i>Agaricus bisporus</i> Mushrooms	277	45. Consumption and Production of Recently Domesticated Edible Fungi in the United States with a Projection of Their Potential	331
R. B. BEELMAN & D. J. ROYSE		DANIEL J. ROYSE, QING SHEN & CHRIS MCGARVEY	
36. Preliminary Planning and Design for Edible Fungus Production	282	46. Cultivation of <i>Pleurotus</i> spp in China	338
JUAN CHEN, ZHONGGUI ZHU & PINGPING LI		QI TAN, ZHIQIANG WANG, JIHONG CHENG, QIAN GUO & LIGANG GUO	
37. Evaluation of Different Colombian Agroindustrial Wastes as Substrates for the Growth and Production of <i>Lentinula edodes</i>. Berk. Pegler (Shiitake)	285	47. Cultivation of New Mushroom Species in East Asia	343

K. YAMANAKA		Mushroom Functional Foods	407
48. The Cultivars of <i>Pleurotus nebrodensis</i> in China	350	YU LI	
JINGXIA ZHANG, CHENYANG HUANG & CUIXIN LI		58. The Possible Role of Mushrooms in Maintaining Good Health and Preventing Diseases	412
49. The Exploitation and Cultivation of <i>Pleurotus nebrodensis</i> in China	354	J. I. LELLEY & J. VETTER	
JINWEN SHEN, HENG GUO, YAN CHENG, XIANGYANG WEI, GUANGHUI GUO, GUOHUA LIU & SHENMAO JIA		59. Role of <i>Ganoderma lucidum</i> in Minimizing Recurrences in Five Common Clinical Problems of the Respiratory Tract: a Study of 308 Cases	420
Part VI DISEASE AND PEST CONTROL	361	N. R. SHAH & B. N. SHAH	
50. Viral dsRNAs in <i>Agaricus bisporus</i> : Transmission, Symptom, Expression and Control	363	Part VIII ETHNOLOGICAL ASPECTS OF MUSHROOMS	429
HELEN GROGAN, RICHARD GAZE & SARAH HOLCROFT		60. Medicinal Polypores Indigenous to the Pacific Northwest Old Growth Forests of North America: Screening for Novel Antiviral Activity	431
51. Green Moulds and Bacterial Blotch of the Cultivated Mushroom, <i>Agaricus bisporus</i>	368	PAUL E. STAMETS.	
D. L. RINKER & A. CASTLE		61. Introduction to Edible Fungi Resources in China: Interesting Mushrooms from the Hengduan Mountains	440
52. Strategic Mushroom Pest and Disease Management Downunder	373	MU ZANG	
G.K. SEYMOUR		62. Poisonous Mushrooms Known from China - Species Resources and Distribution	442
53. Determination of <i>Pseudomonas tolaasii</i> Threshold Concentrations Required to Produce Symptoms of Bacterial Blotch Disease in <i>Pleurotus eryngii</i>	379	TAIHUI LI, ZHULIANG YANG, ZUOHONG CHEN, BIN SONG & WANGQIU DENG	
A. RODRIGUEZ ESTRADA & D. J. ROYSE		63. Studies on the <i>Ganoderma</i> Species of Bangladesh	448
54. Types of Interactions Between <i>Lentinula edodes</i> (Agaricales) and <i>Trichoderma</i> Species ("Green Molds") on Malt Extract Agar Medium	383	M.Q. ZAMAN & SHEIKH MOHAMMED RUHUL AMIN	
O.V. SHULGA		Part IX QUALITY CONTROL, MARKETING AND PROMOTION OF MUSHROOM PRODUCTS	453
55. Laboratory Efficacy of Selected Fungicides and <i>Rhododendron catawbiense</i> Leaf Extracts on the Growth of <i>Verticillium fungicola</i>	390	64. Exotic Mushroom Production in Europe Needs Innovations	455
D. P. MAMIRO & D. J. ROYSE		P.T. OEI	
Part VII MUSHROOM PRODUCTS IN GLOBAL HEALTHCARE	397	65. Growth of <i>Staphylococcus aureus</i> and Enterotoxin Production in Blanched Mushrooms Held in Salt Brines and the Possible Role of Chitin	463
56. Innovative New Fungal Products Produced with Solid Substrate Fermentation	399	PETER A. CHEPLICK & ROBERT B. BEELMAN	
M.P. WACH		66. Post Harvest Quality of <i>Agaricus bisporus</i> Mushrooms	475
57. Applications of Modern Separation and Recombination Technology in the Study of		H.J. WICHERS, C. SOLAR-RIVAS, O. DANAI, O. NERYA & D. LEVANON	

Part X INTERNATIONAL ORGANIZATIONS SUPPORTING MUSHROOM AND MUSHROOM PRODUCT DEVELOPMENT IN LESS-DEVELOPED COUNTRIES	483
67. Role of China's Mushroom Societies in the Development of the Mushroom Industry	485
YINGJIE PAN	
68. The Role of the China Edible Fungi Association in Promoting the Full-scale Development of the Mushroom Industry	488
JIEREN LU	
69. Support for Poverty Alleviation through Mushroom Farming: The MushWorld Foundation's Case	494
HYUNJONG KWON & KYUNG WHA CHOI	
SATELLITE SYMPOSIUM: GANODERMA SPP.	503
70. Immunoactivation and Antiproliferation of Tumor Cells by Active Compounds of <i>Ganoderma lucidum</i>	505
HUA FAN, JINGSONG ZHANG, QINGJIU TANG, CHANGYAN ZHOU, WIE JIA, MARTIN ZIMMERMAN-KORDMANN & WERNER REUTTER	
71. Immunomodulating Activities of β-Glucan of <i>Ganoderma lucidum</i> by Binding to Dectin-1 Receptor	510
HA WON KIM, SE YOUNG CHOUNG & BYONG KAK KIM	
72. Biosynthesis of Immunostimulatory Compounds from <i>Ganoderma</i> sp. from European Habitats by Submerged and Solid State Cultivation	517
MARIN BEROVIC, BOJANA BOH & BRANKA WRABER	
73. Interspecific Hybridization of <i>Ganoderma lucidum</i> and <i>G. tsugae</i> by Protoplast Fusion	528
W. Y. LUK & S.W. CHIU	
74. Production of IgM by B cells After Stimulation with GLIS from <i>Ganoderma lucidum</i> Mushroom	535
QINGJIU TANG, JINGSONG ZHANG, WERNER REUTTER & HUA FAN	
Index	543

LIST OF CONTRIBUTORS

Number in parentheses indicate the pages on which the authors' contributions begin.

T. AIMI (155), Tottori University, Tottori, Tottori, Japan.

M.A.L. DE A. AMAZONAS (111), National Forest Research Centre / Brazilian Agricultural Research Corporation -Embrapa Florestas, P.O. Box 319, Cep 83411-000, Colombo, Paraná, Brasil

S.M.R. AMIN (448), Mushroom Center Development Project, Horticulture Center, Sobhanbag, Savar, Dhaka-1340, Bangladesh.

J.J.P. BAARS (163), Applied Plant Research (APR), Mushroom Research Unit, Horst, The Netherlands.

N. BAINS (61), School of Science and the Environment, Coventry University, Priory Street, Coventry, CV1 5FB, United Kingdom.

KYUNG-JUNG BANG (74), Department of Applied Biochemistry, College of Natural Science, Konkuk University, Chung-Ju, Republic of Korea.

R. B. BEELMAN (277, 463), Department of Food Science, The Pennsylvania State University, University Park, Pennsylvania, USA.

MARIN BEROVIC (517), Department of Chemical, Biochemical & Ecology Engineering, University of Ljubljana, Askerceva 9, 1000 Ljubljana, Slovenia.

YINBING BIAN (194), The Institute of Applied Mycology, College of Plant Science and Technology, Huazhong Agricultural University, Wuhan, Hubei 430070, China.

BOJANA BOH (517), Faculty of Science and Engineering, University of Ljubljana, Vegova 4, 1000 Ljubljana, Slovenia.

I. BRČESKI (66, 135), Faculty of Chemistry, University of Belgrade, Studentski trg 3, 11000 Belgrade, Serbia and Montenegro.

KERRY BURTON (61, 111), Warwick HRI, University of Warwick, Wellesbourne, Warwick CV35 9EF, United Kingdom.

P. CALLAC (37), INRA, MYCSA (Mycologie et Sécurité des Aliments) BP 81, 33883 Villenave d'Ornon cedex, France

YUQIAN CAO (214), Forestry Science Institute of Dandong City, Dandong, Liaoning 118011, China.

A. CASTLE (368), Brock University, Department of Biological Sciences, 500 Glenridge Avenue, St Catharines, ON L2S 3A1, Canada.

SHU-TING CHANG (1), 3 Britton Place, McKellar, ACT 2617, Australia

JUAN CHEN (282), Institute of Agricultural Equipment Engineering, Jiangsu University, Zhenjiang, Jiangsu 212013, China.

MEIYUAN CHEN (85), Fujian Research Institute of Light Industry, Fuzhou, Fujian 350005, China.

SHOUCAI CHEN (185), State Key Laboratory of Tropical Crop Biotechnology, The Chinese Academy of Tropical Agricultural Sciences, Chengxi, Haikou, Hainan 571101, China.

ZHENGFEN CHEN (214), Forestry Science Institute of Dandong City, Dandong, Liaoning 118011, China.

ZUOHONG CHEN (442), Mycological Laboratory, Life Science College, Hunan Normal University, Changsha 410081, China.

JIHONG CHENG (338), Edible Fungi Institute, Shanghai Academy of Agricultural Sciences, 35 Nanhua Road, Shanghai 201106, China.

YAN CHENG (354), Biology Institute of Henan Academy of Sciences, Zhengzhou, Henan 450008, China.

PETER A. CHEPLICK (463), 116 D, Borland Laboratory, Department of Food Science, The Pennsylvania State University, University Park, Pennsylvania, USA.

FENG CHI (214), Forestry Science Institute of Dandong City, Dandong, Liaoning 118011, China.

S.W. CHIU (528), Department of Biology, The Chinese University of Hong Kong, Shatin, N.T., Hong Kong SAR, China.

BONG-GUM CHO (74), Department of Applied Biochemistry, College of Natural Science, Konkuk University, Chung-Ju, Republic of Korea.

Y.H. CHO (140), Applied Microbiology Division, National Institute of Agricultural Science and Technology, RDA, Suwon 441-707, Republic of Korea

KYUNG WHA CHOI (494), MushWorld Foundation, 5F Haeng-oon Bldg. 150-5 Pyungchang-dong, Jongro-gu, Seoul 110-846, Republic of Korea.

YUN-SUN CHOI (74), Department of Applied Biochemistry, College of Natural Science, Konkuk University, Chung-Ju, Republic of Korea.

SE YOUNG CHOUNG (510), College of Pharmacy, Kyung Hee University, Seoul 130-701, Republic of Korea

I.M. CHUNG (140), College of Agriculture and Life Science, Kon-Kuk University, Seoul 143-701, Republic of Korea.

M. CIRULLI (105), Dipartimento di Biologia e Patologia Vegetale, Università di Bari, Via Amendola 165/A, 70126 Bari, Italy.

EMILIE COMBET (111), Coventry University, School of Science and the Environment, Priory Street, Coventry CV1 5FB, United Kingdom.

O. DANAI (249, 475), Migal, Galilee Tech Center, P.O.Box 831 Kiryat-Shmona 11-016, Israel.

WANGQIU DENG (442), Guangdong Provincial Key Laboratory of Microbial Collection and Application, Guangdong Institute of Microbiology, Guangzhou 510070, China.

MARYNA YA. DIDUKH (20), M.G. Kholodny Institute of Botany, National Academy of Sciences of Ukraine, 2 Tereshchenkivska St., 01001 Kiev, Ukraine.

EYLEM DİZMAN (323), Karadeniz Technical University, Faculty of Forestry, Forest Products Engineering Department, Trabzon, Turkey.

S. DULETIĆ-LAUŠEVIĆ (66, 135), Institute of Botany, Faculty of Biology, University of Belgrade, Takovska 43, 11000 Belgrade, Serbia and Montenegro.

DANIEL EASTWOOD (61, 111), Warwick HRI, University of Warwick, Wellesbourne, Warwick CV35 9EF, United Kingdom.

K. I. EREIFEG (264), Jordan University of Science and Technology, P.O.Box 3030, Irbid 22110, Jordan.

HUA FAN (505, 535), Institut für Molekularbiologie und Biochemie, Campus Benjamin Franklin, Charité - Universitätsmedizin Berlin, Arnimallee 22, 14195 Berlin-Dahlem, Germany.

H. FAZAELI (291), Animal Science Research Institute, P.O. Box 1483, 31585 Karaj, Iran.

M. FRANCO (285), Universidad Nacional de Colombia, Bogotá, Colombia.

S. FRISULLO (89), Dipartimento D.I.S.A.C.D., Facoltà di Agraria, Università di Foggia, Via Napoli 25, 71100 Foggia, Italy.

T.W. FUNG (285), National Taiwan University, Taipei, Taiwan, China.

Y.W. FUNG (285), Pontificia Universidad Javeriana, Bogotá, Colombia

GARCÍA, B. S (243), Facultad de Ciencias Agrícolas, Universidad Autónoma de Chiapas Campus IV, Huehuetán, Chiapas, México.

PARVEEN GARG (296), Department of Botany, Swami Shradhanand College, University of Delhi, Alipur, Delhi-110036, India.

RICHARD GAZE (363), Warwick HRI, The University of Warwick, Wellesbourne, Warwick CV35 9EF, United Kingdom.

ENGİN D. GEZER (258, 323), Kafkas University, Faculty of Forestry, Forest Products Engineering Department, Artvin, Turkey.

GARETH GRIFFITHS (111), Warwick HRI, University of Warwick, Wellesbourne, Warwick CV35 9EF, United Kingdom.

HELEN GROGAN (363), Warwick HRI, The University of Warwick, Wellesbourne, Warwick CV35 9EF, United Kingdom.

J. GUINBERTEAU (37), INRA, MYCSA (Mycologie et Sécurité des Aliments) BP 81, 33883 Villenave d'Ornon cedex, France

GUANGHUI GUO (354), Biology Institute of Henan Academy of Sciences, Zhengzhou, Henan 450008, China.

HENG GUO (354), Biology Institute of Henan Academy of Sciences, Zhengzhou, Henan 450008, China.

LIGANG GUO (338), Edible Fungi Institute, Shanghai Academy of Agricultural Sciences, 35 Nanhua Road, Shanghai 201106, China.

LIQIONG GUO (185), College of Food Sciences, South China Agricultural University, Wushan, Tianhe, Guangzhou, Guangdong 510640, China

QIAN GUO (338), Edible Fungi Institute, Shanghai Academy of Agricultural Sciences, 35 Nanhua Road, Shanghai 201106, China.

ZHONGJIE GUO (85), Fujian Research Institute of Light Industry, Fuzhou, Fujian 350005, China.

I.R. HALL (45), Botany Department, University of Otago, P.O. Box 56, Dunedin, New Zealand

K.M. HAMEED (264), Jordan University of Science and Technology, P.O.Box 3030, Irbid 22110, Jordan.

JANEY HENDERSON (61, 111), Coventry University, School of Science and the Environment, Priory Street, Coventry CV1 5FB, United Kingdom.

P.M. HENDRICKX (163), Applied Plant Research (APR), Mushroom Research Unit, Horst, The Netherlands.

SARAH HOLCROFT (363), Warwick HRI, The University of Warwick, Wellesbourne, Warwick CV35 9EF, United Kingdom.

CHENYANG HUANG (350), Soil and Fertilizer Institute, Chinese Academy of Agricultural Sciences, Beijing 100081, China.

YADONG HUANG (194), The Institute of Applied Mycology, College of Plant Science and Technology, Huazhong Agricultural University, Wuhan, Hubei 430070, China.

C.S. JHUNE (140, 204), Applied Microbiology Division, National Institute of Agricultural Science and Technology, RDA, Suwon 441-707, Republic of Korea.

SHENMAO JIA (354), Biology Institute of Henan Academy of Sciences, Zhengzhou, Henan 450008, China.

WIE JIA (505), Shanghai Academy of Agricultural Sciences, 2901 Beidi Road, Shanghai 201106, China.

JOONG-HO JOH (74), Department of Applied Biochemistry, College of Natural Science, Konkuk University, Chung-Ju, Republic of Korea.

GAE-NAM JUNG (74), Department of Applied Biochemistry, College of Natural Science, Konkuk University, Chung-Ju, Republic of Korea.

E. KALMIS (92, 95), Department of Bioengineering, Engineering Faculty, Ege University, 35100 Bornova-Izmir, Turkey.

F. KALYONCU (92, 95), Biology Department, Science and Art Faculty, Celal Bayar University, Muradiye-Manisa, Turkey.

SUTTIPUN KEAWSOMPONG (68), Department of Biotechnology, Faculty of Agro-Industry, Kasetsart University, Bangkok 10900, Thailand.

R.W. KERRIGAN (163), Sylvan Research, 198 Nolte Dr., Kittanning, PA 16201, U.S.A.

G.H. KHAMMAR (313), Malard Mushroom Research Center, Malard, Karaj, Iran.

MAIREAD KILPATRICK (221), Horticulture and Plant Breeding Station, Loughgall, Co Armagh, BT60 8JB, United Kingdom.

B.G. KIM (204), National Institute of Agricultural Biotechnology, RDA, Suwon 441-707, Republic of Korea.

BYONG KAK KIM (510), College of Pharmacy, Seoul National University, Seoul 151-742, Republic of Korea.

G.H. KIM (204), Department of Biotechnology, Yonam College of Agriculture, Sungwan, Choongnam 330-802, Republic of Korea.

HA WON KIM (510), Department of Life Sciences, University of Seoul, Seoul 130-743, Republic of Korea.

K.H. KIM (140), College of Agriculture and Life Science, Kon-Kuk University, Seoul 143-701, Republic of Korea.

NAM-KUK KIM (74), Department of Applied Biochemistry, College of Natural Science, Konkuk University, Chung-Ju, Republic of Korea.

Y. KITAMOTO (155), Tottori University, Tottori, Tottori, Japan.

W.S. KONG (140, 204), Applied Microbiology Division, National Institute of Agricultural Science and Technology, RDA, Suwon 441-707, Republic of Korea.

KYO CHUL KOO (127), Department of Genetic Engineering, Paichai University, Daejeon 302-735, Republic of Korea

HYUNJONG KWON (494), MushWorld Foundation, 5F Haeng-oon Bldg. 150-5 Pyungchang-dong, Jongro-gu, Seoul 110-846, Republic of Korea.

E. LANCELLOTTI (105), Dipartimento di Protezione delle Piante - Sezione di Patologia Vegetale, Università di Sassari, Via E. De Nicola 9, 07100 Sassari, Italy.

CHANG-SOO LEE (74), Department of Applied Biochemistry, College of Natural Science, Konkuk University, Chung-Ju, Republic of Korea.

DAE HYOUNG LEE (127), Department of Genetic Engineering, Paichai University, Daejeon 302-735, Republic of Korea

JONG SOO LEE (127), Department of Genetic Engineering, Paichai University, Daejeon 302-735, Republic of Korea

J. I. LELLEY (412), GAMU Ltd., Institute for Mushroom Research, Krefeld, Germany

D. LEVANON (249, 475), Migal, Galilee Tech Center, P.O.Box 831 Kiryat-Shmona 11-016, Israel.

CUIXIN LI (350), Soil and Fertilizer Institute, Chinese Academy of Agricultural Sciences, Beijing 100081, China.

HONGRONG LI (85), Fujian Research Institute of Light Industry, Fuzhou, Fujian 350005, China.

PINGPING LI (282, 318), Institute of Agricultural Equipment Engineering, Jiangsu University, Zhenjiang, Jiangsu 212013, China.

TAIHUI LI (442), Guangdong Provincial Key Laboratory of Microbial Collection and Application, Guangdong Institute of Microbiology, Guangzhou 510070, China.

YU LI (407), Jilin Agricultural University, Xincheng Street, Changchun City, Jilin 130118, China.

YUEMEI LI (299), Biotechnological and Engineering School, Shanxi Teachers University, Linfen, Shanxi 041000, China.

JIANHUA LIAO (85), Fujian Research Institute of Light Industry, Fuzhou, Fujian 350005, China.

JONG-HYUN LIM (74), Department of Applied Biochemistry, College of Natural Science, Konkuk University, Chung-Ju, Republic of Korea.

JUNFANG LIN (185), College of Food Sciences, South China Agricultural University, Wushan, Tianhe, Guangzhou, Guangdong 510640, China

GUOHUA LIU (354), Biology Institute of Henan Academy of Sciences, Zhengzhou, Henan 450008, China.

JIEREN LU (488), Executive Deputy Director, China Edible Fungi Association, 45 Fuxingmennei Street, Beijing 100801, China.

ZHENGHUI LU (85), Fujian Research Institute of Light Industry, Fuzhou, Fujian 350005, China.

W. Y. LUK (528), Department of Biology, The Chinese University of Hong Kong, Shatin, N.T., Hong Kong SAR, China.

GARY LYONS (221), Department of Applied Plant Science, School of Agriculture and Food Science, Queen's University, Belfast; and Applied Plant Science Division, Department of Agriculture and Rural Development for Northern Ireland, Newforge Lane, Belfast, BT9 5PX, United Kingdom.

L. MADDAU (89), Dipartimento di Protezione delle Piante - Sezione di Patologia Vegetale, Università di Sassari, Via E. De Nicola 9, 07100 Sassari, Italy.

D. P. MAMIRO (390), Department of Plant Pathology, 315 Buckhout Laboratory The Pennsylvania State University, University Park, PA 16802, USA.

L. X. MAO (99), Hangzhou Bioer Technology Co., Ltd., 1192 Bin An Road, Hi-Tech (Binjiang) District, Hangzhou, Zhejiang 310053, China.

P. MARONGIU (89), Dipartimento di Protezione delle Piante - Sezione di Patologia Vegetale, Università di Sassari, Via E. De Nicola 9, 07100 Sassari, Italy.

F. MARRAS (89, 105), Dipartimento di Protezione delle Piante - Sezione di Patologia Vegetale, Università di Sassari, Via E. De Nicola 9, 07100 Sassari, Italy.

CHRIS MCGARVEY (331), White Mountain Mushrooms, Freedom, NH 03836, USA.

O. NERYA (475), Migal, Galilee Tech Center, P.O.Box 831 Kiryat-Shmona 11-016, Israel.

E. NEVO (135), Institute of Evolution, University of Haifa, Mount Carmel, Haifa 31905, Israel.

SUNEE NITISINPRASERT (68), Department of Biotechnology, Faculty of Agro-Industry, Kasetsart University, Bangkok 10900, Thailand.

P.T. OEI (455), Chairman, ECO Consult, Tiel, The Netherlands.

S.J. OH (204), Applied Microbiology Division, National Institute of Agricultural Science and Technology, RDA, Suwon 441-707, Republic of Korea.

YINGJIE PAN (485), Shanghai Fisheries University, Shanghai 200090, China.

HYE-RAN PARK (74), Department of Applied Biochemistry, College of Natural Science, Konkuk University, Chung-Ju, Republic of Korea.

JEONG SIK PARK (127), National Institute of Agricultural Science and Technology, Suwon 441-707, Republic of Korea.

M. PAVLIK (306), Department of Forest Protection and Game Management, Faculty of Forestry, Technical University, T.G.Masaryka 20, Zvolen 960 53, Slovak Republic.

M. X. PENG (99), Hangzhou Bioer Technology Co., Ltd., 1192 Bin An Road, Hi-Tech (Binjiang) District, Hangzhou, Zhejiang 310053, China.

M. PETRE (99), Hangzhou Bioer Technology Co., Ltd., 1192 Bin An Road, Hi-Tech (Binjiang) District, Hangzhou, Zhejiang 310053, China.

S. RAPIOR (37), Laboratoire de Botanique, Phytochimie et Mycologie, UMR 5175 CEFE, Faculté de Pharmacie, 15 avenue Charles Flahault, BP 14491, F-34093 Montpellier cedex 5, France.

WERNER REUTTER (505, 535), Institut für Molekularbiologie und Biochemie, Campus Benjamin Franklin, Charité -Universitätsmedizin Berlin, Arnimallee 22, 14195 Berlin-Dahlem, Gemany.

H. RIAHI (313), Department of Biology, University of Shahid Behashti, Evin, Tehran, Iran.

D. L. RINKER (368), University of Guelph, Department of Plant Agriculture, 4890 Victoria Avenue North, Box 7000, Vineland Station, ON L0R 2E0, Canada.

A. RODRIGUEZ ESTRADA (379), 316 Buckhout Laboratory, Department of Plant Pathology, The Pennsylvania State University, University Park, PA 16802, USA.

C. P. ROMAINE (174), Department of Plant Pathology, The Pennsylvania State University, University Park, PA 16802, U.S.A.

D. J. ROYSE (243, 277, 331, 379, 390), Department of Plant Pathology, The Pennsylvania State University, University Park, PA 16802, USA.

I. SAADUN (264), Jordan University of Science and Technology, P.O.Box 3030, Irbid 22110, Jordan

J.E. SÁNCHEZ (243), El Colegio de la Frontera Sur, Apdo Postal 36, Tapachula, Chiapas 30700, México.

JARUWAN SANOMWATANAWONG (68), Department of Biotechnology, Faculty of Agro-Industry, Kasetsart University, Bangkok 10900, Thailand.

A. SCHIAFFINO (105), Dipartimento di Protezione delle Piante - Sezione di Patologia Vegetale, Università di Sassari, Via E. De Nicola 9, 07100 Sassari, Italy.

G.K. SEYMOUR (373), AMGA, Locked Bag 3; Windsor NSW 2756, Australia.

A. SHAFEYI (291), Agricultural Research Center, Hamedan, Iran.

B. N. SHAH (420), Microaid Diagnostic Laboratory, Ankur Complex ,Behind Town Hall, Ellis Bridge, Ahmedabad 380006, India.

N. R. SHAH (420), The Ray of Hope Research Foundation , Shrey Chandra Colony, C.G. Road, Ahmedabad 380006, India

ZHOUIAN SHANGGUAN (200), The Sanming Mycological Institute, Sanming, Fujian 365000, China.

W. SHARADQAH (264), Jordan University of Science and Technology, P.O.Box 3030, Irbid 22110, Jordan.

H. S. SHEKHAR SHARMA (221, 249), Department of Applied Plant Science, School of Agriculture and Food Science, The Queen's University of Belfast; and Applied Plant Science Division, Department of Agriculture for Northern Ireland, Newforge Lane, Belfast BT9 5PX, United Kingdom.

JINWEN SHEN (354), Biology Institute of Henan Academy of Sciences, Zhengzhou, Henan 450008, China.

QING SHEN (331), Kennett Square Specialties, Kennett Square, PA 19348, USA.

O.V. SHULGA (383), National Agrarian University (NAUU), Kiev, Ukraine.

M. H. SOLAK (92, 95), Fungi Program, Ula Ali Koçman Vocational High School, Muğla Univiversity, Ula-Muğla, Turkey.

C. SOLAR-RIVAS (475), A&F, Wageningen UR, P.O. Box 17,6700 AA Wageningen, The Netherlands.

BIN SONG (442), Guangdong Provincial Key Laboratory of Microbial Collection and Application, Guangdong Institute of Microbiology, Guangzhou 510070, China.

A.S.M. SONNENBERG (163), Applied Plant Research (APR), Mushroom Research Unit, Horst, The Netherlands.

M. STAJIĆ (66, 135), Institute of Botany, Faculty of Biology, University of Belgrade, Takovska 43, 11000 Belgrade, Serbia and Montenegro.

PAUL E. STAMETS (431), Director Fungi Perfecti Research Laboratories, P.O. Box 7634, Olympia, WA, 98507, USA.

QI TAN (338), Edible Fungi Institute, Shanghai Academy of Agricultural Sciences, 35 Nanhua Road, Shanghai 201106, China.

QINGJIU TANG (505, 535), Shanghai Academy of Agricultural Sciences, 2901 Beidi Road, Shanghai 201106, China

ALI TEMİZ (258, 323), Karadeniz Technical University, Faculty of Forestry, Forest Products Engineering Department, Trabzon, Turkey.

J. VETTER (412), St. Stephan University, Faculty of Veterinary Science, Department of Botany, Budapest, Hungary.

J. VUKOJEVIĆ (66, 135), Institute of Botany, Faculty of Biology, University of Belgrade, Takovska 43, 11000 Belgrade, Serbia and Montenegro.

M. P. WACH (399), Sylvan Inc., Kittanning, PA 16201, USA.

WEN WANG (318), Institute of Agricultural Equipment Engineering, Jiangsu University, Zhenjiang, Jiangsu 212013, China.

Y. WANG (45), Institute of Applied Ecology, Academia Sinica, Shenyang, Liaoning, China.

ZESHENG WANG (85, 236), Fujian Research Institute of Light Industry, Fuzhou, Fujian 350005, China.

ZHIQIANG WANG (338), Edible Fungi Institute, Shanghai Academy of Agricultural Sciences, 35 Nanhua Road, Shanghai 201106, China.

ZHUOREN WANG (194), The Institute of Applied Mycology, College of Plant Science and Technology, Huazhong Agricultural University, Wuhan, Hubei 430070, China.

S.P. WASSER (20, 135), Institute of Evolution, University of Haifa, Mt Carmel, 31905 Haifa, Israel; and M.G. Kholodny Institute of Botany, National Academy of Sciences of Ukraine, 2 Tereshchenkovskaya St., 01001 Kiev, Ukraine.

XIANGYANG WEI (354), Biology Institute of Henan Academy of Sciences, Zhengzhou, Henan 450008, China.

H.J. WICHERS (475), A&F, Wageningen UR, P.O. Box 17,6700 AA Wageningen, The Netherlands.

BRANKA WRABER (517), Institute of Microbiology and Immunology, Medical Faculty, University of Ljubljana, Zaloska 4, 1000 Ljubljana, Slovenia.

YANG XIAO (194), The Institute of Applied Mycology, College of Plant Science and Technology, Huazhong Agricultural University, Wuhan, Hubei 430070, China.

SHENG XIONG (185), State Key Laboratory of Tropical Crop Biotechnology, The Chinese Academy of Tropical Agricultural Sciences, Chengxi, Haikou, Hainan 571101, China.

K. YAMANAKA (343), Kyoto Mycological Institute, 1-55 Hirabayashi, Yamashina, Kyoto 607-8406, Japan.

BINGZHI YANG (150), Edible Fungi Association of Dandong City, Beitong Street 300-6, Badaogou, Dandong, Liaoning 118000, China.

ZHULIANG YANG (442), Kunming Institute of Botany, Chinese Academy of Sciences, Kunming 6500204, China.

SIBEL YILDIZ (258, 323), Karadeniz Technical University, Faculty of Forestry, Forest Products Engineering Department, Trabzon, Turkey.

ÜMIT C. YILDIZ (258, 323), Karadeniz Technical University, Faculty of Forestry, Forest Products Engineering Department, Trabzon, Turkey.

F. YILMAZ ERSEL (92), Fungi Program, Ula Ali Koçman Vocational High School, Muğla Univiversity, Ula-Muğla, Turkey.

Y.B. YOO (140, 204), Applied Microbiology Division, National Institute of Agricultural Science and Technology, RDA, Suwon 441-707, Republic of Korea.

C.H. YOU (140), Applied Microbiology Division, National Institute of Agricultural Science and Technology, RDA, Suwon 441-707, Republic of Korea

M.Q ZAMAN (448), Mushroom Center Development Project, Horticulture Center, Sobhanbag, Savar, Dhaka-1340, Bangladesh.

A. ZAMBONELLI (45), Dipartimento di Protezione e valorizzazione Agroalimentare, Via Fanin 40, 40127 Bologna, Italy.

MU ZANG (440), Cryptogamic Herbarium, Kunming Institute of Botany, Academia Sinica, Kunming 650204, and Key Laboratory of Microbial Fermentation, Yunnan University, Kunming, Yunnan 650091, China.

JINGSONG ZHANG (505, 535), Shanghai Academy of Agricultural Sciences, 2901 Beidi Road, Shanghai 201106, China

JINGXIA ZHANG (350), Soil and Fertilizer Institute, Chinese Academy of Agricultural Sciences, Beijing 100081, China.

YIN ZHANG (214), Forestry Science Institute of Dandong City, Dandong, Liaoning 118011, China.

CHANGYAN ZHOU (505), Shanghai Academy of Agricultural Sciences, 2901 Beidi Road, Shanghai 201106, China

ZHONGGUI ZHU (282, 318), Institute of Edible Fungi, Zhenjiang, Jiangsu 212013, China.

MARTIN ZIMMERMAN-KORDMANN (505), Institut für Molekularbiologie und Biochemie, Campus Benjamin Franklin, Charité - Universitätsmedizin Berlin, Arnimallee 22, 14195 Berlin-Dahlem, Germany.
